NCI Budget FY 2015 FY 2016

July 5, 2014

To: NCI Office of Budget and Finance

Our organization advocates increased appropriations by Congress to the National Cancer Institute.

The specific authorization enacted by Congress for the NCI to submit a budget estimate directly to the President provides a special opportunity to indicate for each fiscal year the amount and purposes of appropriations needed to achieve objectives of the National Cancer Program.
FY 2015 NCI Budget Request

We urge NCI to submit such an annual budget estimate for FY 2015 directly to the President with a request that it be considered and submitted to Congress for consideration as a supplement to the President's Budget proposal for FY 2015.
FY 2016 NCI Budget Request

We urge NCI to submit such an annual budget estimate for FY 2016 directly to the President in September 2014.

The published NCI budget estimate submitted to the President for FY 2003, dated September 1, 2001, included specific itemization of budget amounts and explanations. That format is an example of what we recommend to be used for FY 2015 and FY 2016.

Thank you for considering this email.
