

The President's Budget for Fiscal Year 2017

Budget of the United States Government, Fiscal Year 2017 contains the Budget Message of the President, information on the President's priorities, budget overviews organized by agency, and summary tables.

An item in the President's Budget for Fiscal Year 2017 about cancer research was:

Supporting a Cancer Moonshot. During his 2016 State of the Union Address, President Obama called on Vice President Biden to lead a new, national "Moonshot" initiative to eliminate cancer as we know it. The Budget supports this effort with a \$1 billion initiative to provide the funding necessary for researchers to accelerate the development of new cancer detection and treatments. This includes \$195 million in new cancer activities at the National Institutes of Health (NIH) in Fiscal Year 2016, \$755 million in mandatory funds in the 2017 Budget for new cancer-related research activities at both NIH and the Food and Drug Administration, and support from other agencies such as the Departments of Defense and Veterans Affairs.
